Secure Firearm Products Sponsors First Ever Ray Chapman Speed Star Event at the NRA Bianchi Cup

Carl Junction, MO, April 28, 2008 — Secure Firearm Products will sponsor the first ever Ray Chapman Speed Star Event at the NRA Bianchi Cup scheduled for May 21st through May 25th, 2008. The late Ray Chapman helped open the world-renowned Chapman Academy of Practical Shooting in Columbia, MO. This event honors the memory of a man who greatly contributed to the design and formation of what has now become one of the richest and most exciting events in the sport of Action Pistol Shooting.

The Ray Chapman Speed Star Event features three sets of five red, white and blue star-shaped rotating steel plate targets spaced one foot apart. In this event, the shooter will begin in one box with his gun holstered, draw and fire at the first five targets, and move to the second box, repeating the process for all three boxes. Mike Krei, Director of NRA's Competitive Shooting Division said "Never in the 30-year history of the NRA Bianchi Cup has a competitor been required to move during a match," and, without Ray, modern pistol competitions wouldn't be where it is today. We are honored to name this historical event after Ray and celebrate his vision."
